

Max Lean Protein

**The Weight
Management Protein[†]**

**Protein
Never
Tasted So
Good!**

High Protein, Fiber, Nutrient Blend[†]

Max Muscle brings you **Max Lean Protein**, a totally unique protein product for weight management. This product is designed to provide a delicious high quality protein, with vitamins and minerals in a thick "Hunger Satisfying" shake. The Multi-Source protein blend contains Whey Protein Concentrate, Whole Milk Protein, and Whey Protein Isolate to deliver whey fractions that include alpha-lactalbumin, beta-lactoglobulin, glycomacropeptides, lactoferrin, immunoglobulins, lactoperoxidase, bovine serum albumin and lysozyme. These valuable fractions support the immune system, assist recovery, and boost essential amino acid content. Recent research indicates that protein is more thermogenic than carbs or fat and that high protein diets support satiety compared to low protein diets. **Max Lean Protein** is more than just a great tasting protein; it also contains Vitamins and Minerals for optimal nutrition and recovery. The amino acids glycine and glutamine are added for GH support and exercise recovery. In addition there is fiber from cellulose and oat bran to fill you up, satisfy your hunger, and promote gastrointestinal health. We even added fine ground flax seed for essential fatty acids for healthy muscle cells and glowing skin. Combined with a proper diet and exercise routine, **Max Lean Protein** gives you a creamy, flavorful, thick, satisfying shake to help you achieve your physique goals.[†]

Size: Net Wt. 3lbs. (1362g)

Serving Size: Two (2) Scoops (app. 50g)

Servings Per Container: 27

Flavors: Chocolate Mousse, French Vanilla, Strawberry Shortcake

KEY FEATURES

- Supports Lean Muscle[†]
- Satisfies Hunger[†]
- Supports Thermogenesis[†]

KEY MESSAGES

- Protein fiber nutrient blend supports your weight management efforts.[†]
- Curbs appetite with protein calories and fiber.[†]
- Supports an increase in metabolism without fat calories.[†]
- Supports muscles recovery and growth.[†]
- Source of high quality protein.[†]

TARGET MARKET

Primary: Men and women looking to lean out, slim down, and stay in shape.

Secondary: Those who need a convenient protein source and want to add fiber to their diet.
